SUMMARY AND KEY SKILLS

Collaborative and solution-driven **Software Engineer** with comprehensive experience successfully working within remote and distributed team environments. Thriving within fast-paced environments and excited to utilize current technical knowledge while exploring and growing a variety of skills and capabilities with opportunities to create a significant impact. Demonstrated strong communication skills with a team-centric approach, and reputed as a disciplined and exceptional organizer and advocate, leading teams toward shared goals and objectives. Possessing a multi-cultural and global mindset with extensive travel and living aboard, tri-lingual in English, Portuguese, and Spanish

Remote/Virtual Work | Frontend Development | Backend Development | Keen Number Sense | Software Development
Project Management | Attention to Detail | Self-Motivated | Problem Solving | Growth Mindset | Collaborative
Team & Independent Work Time & Task Management | Written & Verbal Communication | React.js

- Fostering effective collaborative working relationships with management, colleagues, and key stakeholders
- Strong flexibility and adaptability to manage multiple tasks within stringent time frames while ensuring accuracy
- Consistently being accountable and taking ownership of responsibilities within each process
- Pivoting effortlessly as priorities shift, and thriving in a fast-paced environment
- Expert in frontend engineering technologies and methodologies

TECHNOLOGIES AND TRAININGS – ADOPTING NEW TECHNOLOGIES BASIS QUICKLY AND INDEPENDENTLY

Remote Collaboration: Slack, Zoom, Skype, Google Meet, GoToMeeting, Trello, Microsoft Teams, BlueJeans, Dropbox

Document Software: Microsoft Office (Word, Excel, PowerPoint, Project, Outlook), Google Drive (Docs, Sheets, Calendar, Drive, Slides)

Programming: React.js, JavaScript, TypeScript, Node.js, NoSQL Databases, REST APIs, GraphQL, Version Control, CSS, HTML, SASS, Firebase, Responsive Design, Git, Docker, CI-CD, AWS(DynamoDB, Lambda, S3, SQS, CloudWatch, API Gateway), Unit Tests, E2E Tests, Redux

EXPERIENCE

Software Engineer | Fully Remote | Full-Time

04/2021 – Present

Terazo

- Developed fullstack applications using modern React.js and Node.js, successfully meeting client's deadline and quality expectations.
- Presented demos to clients and stakeholders showcasing application features and progress.
- Utilized AWS services such as DynamoDB, Lambdas, S3, API Gateway, SQS, IAM, and CloudWatch to build out serverless applications.
- Wrote end-to-end tests for the frontend using Cypress as well as unit tests for backend using Jest/Mocha.
- Used various npm packages for fast and efficient development of both frontend and backend parts of the project.
- Leveraged technologies such as Docker to containerize projects for easier collaboration with different members of the team.
- Participated in deployment processes through CI/CD pipelines and performed various DevOps tasks.
- Utilized tools such as Jira to manage stories and sprints.
- Participated in code reviews with different members of the team to ensure code quality.

- Responsible for all the UI/UX tasks on the frontend, making sure the application is user friendly and intuitive to use.

Frontend Software Engineer | Fully Remote | Part-Time

11/2020 – Present

SeMI Technologies

- Responsible for developing web applications from scratch using modern React.js (hooks, context API), Sass, npm helper packages, Material UI (styling), Cypress (end-to-end testing), and Git/GitHub (version control)
- Wrote articles with regards to the company's products and how to integrate these products with a frontend application
- Collaborated with team members and users for optimization of UI/UX
- Participated in the UX/UI process for better usability and accessibility of the application
- Enhance the application's performance by utilizing React functional components where possible
- Develop separate development and production environments to facilitate the review of new features with the team prior to pushing to production
- Develop fully responsive applications accessible to all screen devices
- Responsible for maintaining and adding new features to the application

Frontend Developer Intern | Fully Remote | Internship

07/2020 – 11/2020

Ventmode

- Implement responsible web design principles to ensure that the company website renders well across multiple devices
- Review app and feature coding and plan future website upgrades with the development team
- Assist in the development of applications and features that will be put on the website and in internal functions as well
- Develop user-facing web interfaces using React.js, CSS, HTML, JavaScript, Firebase
- Stay on top of industry trends and new web technologies; be adaptable when needed to supplant older conventions with more modern conventions
- Collaborate with other engineers and teams to create and deliver compelling user-facing products

Project Manager | Fully Remote | Full-Time

07/2019 – 07/2020

BlueTeam, Boca Raton, FL

- Manage projects generating over \$200K annually, as well as and contract-revenue projects ranging from \$15K to \$4M, safeguarding and ensuring all projects meet building code and regulation
- Interface and collaborate routinely with distributed team members through use of remote collaboration tools, including BlueTeam, Microsoft Project, Excel, Outlook, and Word
- Design and create a Microsoft Project Training Tutorial Video series to better support project managers and teams in learning how to efficiently manage and direct project timelines
- Direct and oversee up to 8 projects simultaneously, as well as daily supervision and workflow of 30+ member work crew
- Create and executive budgets to set project financial objectives and remain within goals
- Assist project superintendents on field tasks and requirements in support of client satisfaction and project success

Project Superintendent | Dallas, TX | Full-Time

11/2018 – 07/2019

Integrated Real Estate Group, Dallas, TX

- Coordinated all construction services and activities, allocating necessary project resources including contractors, suppliers, and company labor

- Maintained a strict build-out construction schedule, adhering to deadlines and remaining within budget, and completed within quality parameters
- Conducted project meetings, setting milestones, and formulating monthly owner reports
- Interpreted blueprints to successfully complete projects according to construction documents
- Oversaw the workflow of multiple field personnel, work crews, and subcontractors

Project Manager | Dallas, TX | Full-Time

07/2017 – 10/2018

NOW Specialties, Dallas, TX

- Reviewed subcontracts, specifications, and construction drawings to accurately understand and manage projects
- Coordinated material buy outs and deliveries to meet and exceed client expectations
- Managed up to 6 projects at the same time

EDUCATION

Bachelor of Science | Construction Engineering, South Dakota State University, Brookings, SD

- **NCAA Commissioners Award I**
- **NCAA Division I Tennis** – Team Captain, All-League Team Member (2 years), Summit-League Conference, Top-10 Best Player awards
